## Website for International Conference using React

---

### Learning Objective -

To design a Website for an International Conference using React (Similar to Ex 1) with the given specifications.

### Programs -

#### App.js -

```
import './App.css';

import Header from './components/Header'
import Footer from './components/Footer'
import Home from './components/Home'
import Committee from './components/Committee'
import Papers from './components/Papers'
import Dates from './components/Dates'
import Workshops from './components/Workshops'
import Registration from './components/Registration'
import Contact from './components/Contact'

import {
  BrowserRouter as Router,
  Switch,
  Route,
} from "react-router-dom";

function App() {
  return (
    <Router>
      <Header />
      <Switch>
        <Route exact path="/">
          <Home />
```

```
</Route>
<Route exact path="/committee">
  <Committee />
</Route>
<Route exact path="/papers">
  <Papers />
</Route>
<Route exact path="/dates">
  <Dates />
</Route>
<Route exact path="/workshops">
  <Workshops />
</Route>
<Route exact path="/register">
  <Registration />
</Route>
<Route exact path="/contact">
  <Contact />
</Route>
</Switch>
<Footer />
</Router>
);
}
```

```
export default App;
```

---

### index.js -

```
import React from 'react';
import ReactDOM from 'react-dom';
import './index.css';
import App from './App';

ReactDOM.render(
  <App />,
  document.getElementById('root')
);
```

---

### Card.js -

```
import React from 'react'

class Card extends React.Component{
  render(){
    return(
      <div className="card">
        <div class="profile-info">
          <p class="name">{this.props.name}</p>
          <p class="designation">{this.props.desig}</p>
        </div>
      </div>
    );
  }
}

export default Card;
```

---

### Committee.js -

```
import React from 'react'
import Card from './Card'
```

```
var members = [
  {
    name: "Molly Bennet",
    desig: "Patron"
  },
  {
    name: "George Fletcher",
    desig: "General Chair"
  },
  {
    name: "Philip Butler",
    desig: "Patron"
  },
  {
    name: "Darnell Harper",
    desig: "Committee Co-Chair"
  },
]
```

```

{
  name: "Tami Burton",
  desig: "Committee Chair"
},
{
  name: "Lana Reese",
  desig: "Committee Co-Chair"
}
]

class Committee extends React.Component {
  render() {
    return(
      <section id="committee" className="page-section">
        <h1 className="section-heading heading"> Committee Members </h1>
        <hr />
        <div class="comm-cards">
          {members.map((obj) => <Card name={obj.name} desig={obj.desig}/>)}
        </div>
      </section>
    );
  }
}

export default Committee;

```

### Contact.js -

```

import React from 'react';

class Contact extends React.Component {
  render(){
    return(
      <section id="contact" className="page-section">
        <h1 className="section-heading heading"> Contact Us </h1>
        <ul className="contact-list">
          <li><h4>Susan Rivera : </h4> 123456789 </li>
          <li><h4>Wanda Russell : </h4> 987654321 </li>
          <li><h4>Shawn Young : </h4> 456123789 </li>
        </ul>
    )
  }
}

export default Contact;

```

```
        </section>
    );
}
}

export default Contact;
```

---

### Dates.js -

```
import React from 'react';

class Dates extends React.Component {
  render(){
    return(
      <section id="imp-dates" className="page-section">
        <h1 className="section-heading heading">Important Dates </h1>

        <ul className="dates-list fa-ul">
          <li><span className="fa-li"><i className="fas fa-calendar"></i></span><b>Paper Submission Opens :</b> 1 January, 2020</li>
          <li><span className="fa-li"><i className="fas fa-calendar"></i></span><b>Paper Submission Closes:</b> 10 January, 2020 January 31, 2021</li>
          <li><span className="fa-li"><i className="fas fa-calendar"></i></span><b>Acceptance Notification:</b> 15 January, 2021</li>
          <li><span className="fa-li"><i className="fas fa-calendar"></i></span><b>Camera Ready Submission:</b> 20 January, 2021(including registration of authors and payments)</li>
          <li><span className="fa-li"><i className="fas fa-calendar"></i></span><b>Pre Conference Workshop:</b> 26 January, 2021.</li>
          <li><span className="fa-li"><i className="fas fa-calendar"></i></span><b>Conference:</b> 29, 30, 31 January.</li>
        </ul>
      </section>
    );
}
}

export default Dates;
```

---

### Footer.js -

```
import React from 'react'

class Footer extends React.Component{
  render(){
    return(
      <footer>
        <table width="100%">
          <tr>
            <td>
              <div className="footer-contact">
                <h4 className="heading">Contact Us</h4>
                <hr className="footer-line"/>

                <p><a className="contact-info"
                href="mailto:htmllic21@ssn.edu">htmllic21@ssn.edu</a></p>
                <p className="contact-info">044 2746 9700 </p>
                <p className="contact-info">Department of CSE, <br/> SSN College of
                Engineering <br/>
                  Rajiv Gandhi Salai (OMR), Kalavakkam – 603 110 <br/>
                  Chennai , Tamilnadu, India </p>
              </div>
            </td>
          </tr>
          <tr>
            <td colspan={2}>
              <h6 className="copyright"> © Copyright SSNCE, 2021 </h6>
            </td>
          </tr>
        </table>

      </footer>
    );
  }
}

export default Footer;
```

---

### Header.js -

```
import React from 'react'

import Navbar from './Navbar'
import Jumbotron from './Jumbotron'

class Header extends React.Component{
    render(){
        return(
            <div>
                <Navbar />
                <Jumbotron />
            </div>
        );
    }
}

export default Header;
```

---

### Home.js -

```
import React from 'react';
import PageSection from './PageSection'

class Home extends React.Component {
    render() {
        let content_about = 'Proin tellus lorem, cursus vel pulvinar nec, ullamcorper sit amet augue. In et lobortis erat. Nullam dictum rutrum erat id bibendum. Quisque volutpat erat, at placerat dolor condimentum vel. Sed semper auctor ipsum, nec pellentesque tellus luctus vel. Suspendisse aliquam augue quis aliquet placerat. Sed turpis quam, scelerisque in diam eget, egestas consequat tortor. Praesent iaculis vehicula ullamcorper. \n Suspendisse ut erat vitae nisl ultricies tincidunt eu eu purus. Sed ultrices vehicula nulla, tristique viverra nulla venenatis ac. Nullam pharetra turpis sit amet mauris porta pulvinar. Nullam id turpis ut justo varius consequat non eget diam. Duis auctor, erat vitae rhoncus sodales, mauris justo facilisis sapien, sed lobortis urna dolor quis enim. Sed finibus molestie arcu ut pharetra. Praesent nec elit a odio tempus faucibus nec in justo.'

        let content_conf = 'Suspendisse ut erat vitae nisl ultricies tincidunt eu eu purus. Sed ultrices vehicula nulla, tristique viverra nulla venenatis ac. Nullam pharetra turpis sit
```

amet mauris porta pulvinar. Nullam id turpis ut justo varius consequat non eget diam. Duis auctor, erat vitae rhoncus sodales, mauris justo facilisis sapien, sed lobortis urna dolor quis enim. Sed finibus molestie arcu ut pharetra. Praesent nec elit a odio tempus faucibus nec in justo.'

```
return (
  <div>
    <PageSection id="about" title="About Us" content={content_about} displayList={false}/>
    <PageSection id="past-conferences" title="Past Conferences" content={content_conf} displayList={true}/>
  </div>
);
}
}

export default Home;
```

---

### Jumbotron.js -

```
import React from 'react';
class Jumbotron extends React.Component {
  render() {
    return (
      <div className="intro">
        <h1 className="conf-title on-overlay heading"> Welcome to HTML IC
        2021</h1>
        <h2 className="conf-subtitle on-overlay heading"> 10th International
        Conference on HyperText Markup Language </h2>
        <h3 className="conf-info on-overlay">29, 30, 31 January 2021</h3>
        <h3 className="conf-info on-overlay"> <em>Department of CSE, <span
        title="Sri Sivasubramaniya Nadar"> SSN </span>College of Engineering </em></h3>
        <div className="overlay"> </div>
      </div>
    );
  }
}

export default Jumbotron;
```

---

### Navbar.js -

```
import React from 'react';
import {Link} from "react-router-dom";

class Navbar extends React.Component {
  render() {
    return (
      <div className="navbar-container">
        <nav className="navbar">
          <span className="logo">
            
          </span>
          <Link to="/">Home</Link>
          <Link to="/committee" >Committee</Link>
          <Link to="/papers">Call for Papers</Link>
          <Link to="/dates">Important Dates</Link>
          <Link to="/workshops">Workshops</Link>
          <Link to="/register">Registration</Link>
          <Link to="/contact">Contact</Link>
        </nav>
      </div>
    );
  }
}

export default Navbar;
```

---

### PageSection.js -

```
import React from 'react';
import PastConfList from './PastConfList';

class PageSection extends React.Component {
  render() {
    return(
      <section id={this.props.id} className="page-section">
        <h1 className="section-heading heading" >{this.props.title}</h1>
    );
  }
}

export default PageSection;
```

```

        <p> {this.props.content} </p>
        {this.props.displayList ? <PastConfList /> : null}
    </section>
);
}
}

export default PageSection;

```

---

## Output Screenshots -

The screenshot shows the homepage of the HTML IC 2021 conference website. The header features a navigation bar with links for Home, Committee, Call for Papers, Important Dates, Workshops, Registration, and Contact. The main banner image has a dark background with a photograph of several laptops and calla lilies in vases. Overlaid text includes "Welcome to HTML IC 2021", "10th International Conference on HyperText Markup Language", the dates "29, 30, 31 January 2021", and the location "Department of CSE, SSN College of Engineering". Below the banner, there are two white content boxes on a yellow background. The first box is titled "About Us" and contains a paragraph of placeholder text. The second box is titled "Past Conferences" and lists the years 2020, 2019, and 2018. At the bottom, a dark footer section contains a "Contact Us" heading and links to email, phone number, and address.

## **Learning Outcomes -**

1. I successfully designed a website for an international conference using React.
2. I learnt what React components are and how to use props with the components. However I did not use state anywhere as it was not required for this assignment.
3. I also learnt about the React Router and how to render different components on the same page when different routes were given.
4. I ensured that the same header and footer appear for all the different routes but the main content rendered changes.
5. Overall, it was a good learning experience about React and especially React router.
